

**REMARKS**

Claims 13, 17-24, and 26- 32 are pending in the application. Claims 13, 17-24, 26-29, 31, and 32 have been allowed, while Claim 30 was rejected.

**OBJECTION TO SPECIFICATION**

The Examiner objected to portions of the specification. Applicants have amended those portions of the specification and thus request removal of this objection.

**CLAIM REJECTION UNDER 35 U.S.C. § 112, 1<sup>st</sup> PARAGRAPH**

The Examiner rejected Claim 30 under 35 U.S.C. 112, 1<sup>st</sup> Paragraph, citing a failure to comply with the written description requirement. The Applicants respectfully disagree; however, for clarification purposes, the Applicants have amended claim 30. In the specification as originally filed, the final paragraphs states:

"[T]he techniques, designs, elements, and methods described and illustrated in the preferred embodiment as discrete or separate may be combined or integrated with other techniques, designs, elements, or methods without departing from the scope of the present invention."

With this paragraph, it is apparent that one of ordinary skill in the art would understand that different embodiments and elements thereof could be combined. As such, Applicants submit that claim 30, as amended, satisfies 35 U.S.C. 112's written description requirement.
